

## **Stainless Steel Security Anti theft Security Hinge**

The high quality stainless steel security anti theft security hinge has a security extrusion for anti-theft to make it nearly impossible to take the door off the hinges when locked. For general cheap door hinges, the burglar can tap them out and quickly access your home. Therefore, you need safety security hinges to prevent removing the pins and increase your home's safety. Even if you have the door that opens on the inside, you can install these pieces to strengthen it.

### **Stainless Steel Security Anti theft Security Hinge**

#### **Product Introduction**

The high quality stainless steel security anti theft security hinge has a security extrusion for anti-theft to make it nearly impossible to take the door off the hinges when locked. For general cheap door hinges, the burglar can tap them out and quickly access your home. Therefore, you need safety security hinges to prevent removing the pins and increase your home's safety. Even if you have the door that opens on the inside, you can install these pieces to strengthen it. The quality stainless steel material with a protective Satin Stainless Steel finish make the door hinges resist corrosion Long-lasting and in smooth performance. The security door hinge with is mechanical hardware that contains two movable parts rotating around a fixed central piece. You need to screw one side to the door frame and the other on the door to work correctly. Typically, you should place the security pins on the door that swings toward the outside. Some models available on the market have a limited angle of opening, while others can rotate at 360 degrees.

### Product Feature

Stainless Steel Anti theft Security Door Hinge at competitive price with integrated hinge bolt, usually fitted to outward opening doors that could be susceptible to threat of forced entry. A slight chisel of the frame and door is required to accept these hinges. The durable Security Door Hinge features a security dog tip bolt within the leaf of the hinge for further attack prevention, offering in a variety of options designed to mate with our door systems and meet the needs of specific applications. In the past, most homes had these models since they saved the interior space and provided a faster exit in case of an emergency. Unfortunately, this model has pins exposed. The burglar can tap them out and quickly access your home. Therefore, you need safety security hinges to prevent removing the pins and increase your home's safety. Even if you have the door that opens on the inside, you can install these pieces to strengthen it. Contact us to get the free samples.
